Nonprofits raise funds from a variety of sources, including individuals, businesses, the government, foundations, and special events. Lawyers Alliance staff and volunteer attorneys regularly advise nonprofits about the legal parameters of charitable solicitation. This enables organizations' fundraising activities to be most effective and in compliance with federal, state, and local laws.

Bronx Community Health Network (BCHN) improves health in medically underserved communities by contracting with providers of health services to the uninsured or underinsured. Lawyers Alliance volunteer attorneys aided BCHN with evaluating and negotiating two contracts for a jazz benefit concert, BCHN's first such venture to raise private funds to supplement its grants. One contract was with Lehman College for use of its facility. The second contract was with Jazz for Peace for providing the musicians and event promotion. As a result BCHN raised \$27,000 dollars used in part to develop a patient navigator program for community members to help fellow residents understand health insurance forms, apply for public medical assistance, and obtain primary care physicians.
